PROFESSIONAL SUMMARY

AI-focused Full Stack Developer passionate about building scalable web applications, intelligent systems, and modern digital products. Experienced in Next.js, Firebase, Gemini AI, and iOS development with strong interest in startup building, automation, computer vision, and real-world problem solving.

TECHNICAL SKILLS

Languages: JavaScript, Python, C++, SQL, Solidity

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3

Backend & Databases: Firebase, MySQL, Supabase, PostgreSQL

AI & Emerging Tech: Gemini AI, Computer Vision, Voice Analysis, Face Detection, Web3, AI Automation

Tools & Platforms: Git, GitHub, Docker, Vercel, Xcode, Render, Railway, Resend, Hostinger

EDUCATION

MIT WORLD PEACE UNIVERSITY (MIT-WPU), PUNE

Bachelor of Technology in Computer Science & Engineering

2023 – 2027 | Current CGPA: 8.22

Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, Software Engineering

EXPERIENCE

- **FOUNDER & FREELANCE DEVELOPER – WEBIS** (Dec 2025 – Present)
Built and deployed 8+ modern high-performance websites and scalable web applications for clients. Developed full-stack systems using Next.js, Firebase, PostgreSQL, Tailwind CSS, and AI integrations.
- **WINTER INTERNSHIP – CROPC** (Sept 2025 – January 2026)
Contributed to climate resilience initiatives, sustainability research, and disaster management documentation.

PROJECTS

MITRA AI – MENTAL WELLNESS WEB APPLICATION

Tech: Next.js, Firebase, Gemini AI, Conversational AI

- Engineered an AI-driven wellness platform featuring mood analysis, conversational support, and structured user tracking.
- Validated platform workflows and UI interactions with 50+ users for usability optimization.
- Working on a patent-in-process Neural Affective Engine for intelligent emotional interaction systems.

REVIAL – AI POWERED HABIT RECOVERY PLATFORM

Tech: Swift, Xcode, AI Voice Analysis, Face Detection

- Developing an AI-powered recovery platform using behavioral tracking, emotional analysis, voice analysis, and face-detection systems.

- Engineered 10+ personalized intervention and streak-tracking workflows.

LTC PORTAL – MIT-WPU STUDENT MANAGEMENT SYSTEM

Tech: Next.js, Firebase, PostgreSQL

- Developing a production-level academic management platform designed to support 10,000+ students and faculty workflows.
- Engineered scalable dashboards, authentication systems, and role-based access control for 5+ user roles.

MIT-WPU CHAT ASSIST – AI POWERED STUDENT PORTAL

Tech: Next.js, Firebase, Gemini AI

- Built an AI-powered student portal integrating Gemini AI with scalable backend services.
- Engineered real-time assistance systems handling 100+ query interactions.

FEESUP! – ANONYMOUS COLLEGE SOCIAL PLATFORM

Tech: Next.js, Firebase, Tailwind CSS, Vercel

- Developed a real-time anonymous social platform with secure authentication and scalable backend systems.
- Validated anonymous posting workflows with 50+ student users.

AHSANVERSE – BLOCKCHAIN DAPP

Tech: Solidity, Web3

- Implemented secure Solidity smart contracts with Web3 wallet integration.
- Built blockchain-based transaction workflows and decentralized interaction systems.
- Developed and validated multiple smart contract transaction modules.

ACHIEVEMENTS

- Finalist – Vishwanova Hackathon 2026, secured Rank 7 nationally among 700+ teams.
- Qualified up to Round 3 – Smart India Hackathon 2025.
- Built and deployed 8+ full-stack projects.
- Completed Deloitte Technology Job Simulation.
- Participated in L&T National Academic Industry Immersion Program.
- Certified in Python Programming.
- Actively practicing Data Structures & Algorithms on LeetCode.
